Cm

Its easy, dont let it go

Gm

Its easy, dont let it go

D(7)

Don t lose it

Incandescent light at doors

In adolescent menopause

In little clicks you got the music stops

The needle sticks and the penny drops

The summer s gone before you know

The muffled drums of relentless flow

You re looking at stars that give you Vertigo

The sun s still burning and dust will blow

Honey scars I ll keep you near

Our blood is gold nothing to fear

We killed the time and I love you dear

A kiss of wine we ll disappear

The last of the last particles

Divisible invisible

The last of the last particles

Divisible invisible
