

Goredoom Jamboree
Matanza

(C5 F5 G5)

Night falls, evil comes
Trouble knockin indeed
Oh Lord! The curse of Tennessee

Bad moon rising
Gives me a sign
It s the country hardcore jamboree!

And the sun! No longer rises!
There s no place! There s no time!
You need to run! To save your head!
Cause you be dead! If I decide!

Exploding the whole country fair
Shotgun willie! (shotgun willie!)
It s everywhere! (it s everywhere!)

Hear the bullfrog
Croaking to the storm
It s the country hardcore nightmare!

And the sun! No longer rises!
There s no place! There s no time!
You need to run! To save your head!
Cause you be dead! If I decide!

And the sun! No longer rises!
There s no place! There s no time!
You need to run, run, run! To save your head!
Cause you be dead! If I decide!
