Band : Matchbox20
Song : Bent
Album : Mad Season
From: Ahmar

Verse:

G#m   **C#m**
If I fall along the way

F#   **G#m**
pick me up and dust me off.

G#m   **C#m**
and if I get too tired to make it

F#   **B**
be my breath so I can walk

G#m   **C#m**
If I need some other love

F#   **G#m**
give me more than I can stand

G#m   **C#m**
and when my smile gets old and faded

F#   **B**
wait around I ll smile again

          G#m
shouldn t be so complicated

         F#
just hold me and then

          B
just hold me again

Chorus:

B

```
can you help me I m bent

                            E
I m so scared that I ll never

                    F#
get put back together

B
you re breaking me in

                            E
and this is how we will end

        F#              E
with you and me bent

Verse:

G#m                     C#m
If I couldn t sleep could you sleep

F#                      G#m
could you paint me better off

G#m                     C#m
could you sympathize with my needs

F#                              B
I know you think I need a lot

                G#m
I started out clean but I m jaded

            F#
just phoning it in

                B
just breaking the skin

Repeat Chorus
```
