

Busted

Matchbox Twenty

New Tabber

Great song

im surprised nobody did this one yet

cuz its a pretty old song

ELECTRIC

Em 022000

C 032010

D 000232

G 320001

The Band did an acoustic version of this song

i think it sounds fruity

but acoustic u use these chords

Em 022000

C 032010

D**000233

G**320011

Em

I forget when words were only words

Em

She knows the party makes me nervous

Em

In this stage we can't get hurt

Em

Don't try to understand me

C

We're too cool to be alone

D **Em** palm mute

But, not too crazy to get busted

Em

I found out one life just ain't enough

Em

I need another soul to feed on

Em

I'm the flame I can't get burnt

Em

I'm wholly understated

C

I found silence in this space

D Em

An on and off again attraction

C D

I need such amazing grace

D

Heaven sweep me away

[Chorus]

Em G

Love don t change, don t come around here

D C

Don t wear my heart on your sleeve

C

Like a high school letter

Em G

Don t strain, cuz nothing ever come from it

D C

And the people we ve become, well

Em D Em

They ve never been the people who we are

(not sure how this part goes,)

Em

I strap on one horse and pray for luck

Em

I dug another hole to bleed

Em

I know exactly how this works

Em

I need a new feel dirty

C

I don t need you crowding up my space

D Em

I just want to get inside you

C

You can t believe the heart you save

D D

Giving something away

[Chorus]

Em

I dreamed that the world was crumbling down

We sat on my back porch and watched it

Em

I dreamed that the buildings all fell down

We sat on my back porch and watched it

Em

I dreamed that the world was crumbling down

C

We sat on my back porch and watched it

D

In my head I heard the sound

D

Like fifteen strangers dancing

Em

But oh how I want you to know me

D

Oh how I want you to know me

C

Oh how I wish I was somebody else, baby

C

D

Oh how I wish you could own me

[Chorus]
