

Here Come Horses
Matchbox Twenty

Help me to remember girl if you don't mind
Well I feel just like the jester when the music died

C

Haven't seen you lately,

G

But I know that nothing's changed

G

Feeling kinda shaky but the wounds have healed
There's a crack there in the doorway where the walls have peeled

C

G

And I still see the sun go down on a clear day

Am C

Here comes horses

G

There goes the rain

Am C G

Here goes nothing, here it comes again

G

I was thinking I was angry but I'll let it go
I was waiting on a miracle but nothing showed

C

And they say our new messiah

G

He's at the local bar

G

Greetings from the homefront have you heard the news
That daddy bet his paycheck on the horses shoes

C

G

And we won't feel that way for a long long time

Am C

Here comes horses

G

There goes the rain

Am C G

Here goes nothing, here it comes again

G C G C Am C G Am G

G

Sitting in a taxi at the evenings end
I was trying to remember where it was I'd been and

C

G

Whether I've got someplace else to be

G

I ask you why you come here you say just because
I guess I could do without it if I knew what it was well

C

G

It really doesn't matter, when you look at me that way

Am C

Here comes horses

G

There goes the rain
