

Our Song

Matchbox Twenty

D **F#m**
I don't know why sometimes we seem so apart

G
Sown together with a broken heart

A
I try to see you but it's getting dark

D **F#m**
Words keep flowing out I wonder what they mean

G
You're like a little piece of kerosene

A
But girl you've always been a friend to me

Em
And I been too proud sometimes

G **A**
Chasin' fault lines

D
Oh no

F#m
I'm gonna be there always

Em
After the pain has gone away
The feeling is so strong

G
This can be our song

A
This can be our song

D
Oh no

F#m
I'll never make you cry again

Em
I'm gonna set things right again
And I won't let 'em go wrong

G
This can be our song

A
This can be our song

D **F#m**
I don't know if someone else could handle me

G
I don't know what I'm supposed to be

A

And you're the only one who really sees
You get me

D

F#m

I feel something growing deep inside of me

G

What I say and what I mean

A

Always seem to disagree

Em

So help me through this hard time

G

A

Change these fault lines

D

Oh no

F#m

I'm gonna be there always

Em

After the pain has gone away

The feeling is so strong

G

This can be our song

A

This can be our song

D

Oh no

F#m

I'll never make you cry again

Em

I'm gonna set things right again

And I won't let 'em go wrong

G

This can be our song

A

This can be our song
