```
Welcome to my broken house
You don t have to tip toe here
You can put ya feet down
Feel the floor beneath you
Feel the ground
Don t worry bout the future
You re here right now
Unpack your bags
And relax for a while
Rest your weary eyes
I know you ve been tired
Where do you need to go
Where you got to be
Where do you need to go
I m your taxi
Don t you worry, don t you worry now, don t you worry now
Fire gonna rage tonight
Welcome to my broken heart
                                        Am
I know it s hard sometime you fall apart
Welcome to my broken song
Don t worry now baby
                          Αm
You ain t done nothing wrong
Welcome to my broken heart
I know it s hard sometimes you fall apart
Welcome to my broken song
Don t worry now baby
