

Stars And Lovers
Matt Cardle

F#m - D - A - E x9

All the tears could drown a fire,
The stars would fall and time would stop,
If I could reach a little higher,
If Jupiter was close enough, oh.

I lost my place, I found the answer,
I heard it on, the radio,
If I return and take my chances,
If only I could let her know.

D - E - A - F#m x3

My heart is open and the sky s on fire,
I hear the drum and I hear the choir,
The universe was made for us and,
oh oh, The stars and the lovers,
A universe made for us and,
oh oh, The stars and the lovers,

D - E - A

So let go, hold on to each other.

F#m - D - A - E x4

If I could run a million hours,
And hold the oceans, in my hands,
If I could have one superpower,
It would be to make you understand.

D - E - A - F#m x3

My heart is open and the sky s on fire,
I hear the drum and I hear the choir,
The universe was made for us and,
oh oh, The stars and the lovers,
A universe made for us and,
oh oh, The stars and the lovers,

D - E - A

So let go, hold on to each other.

F#m - D - A - E x2

I lost my place, I found the answer,
I heard it on, the radio,

D - E - A - F#m

If only I could let her know.

D - E - A - F#m x3

My heart is open and the sky s on fire,
I hear the drum and I hear the choir,
The universe was made for us and,
oh oh, The stars and the lovers,
A universe made for us and,
oh oh, The stars and the lovers,

D - E - A

So let go, hold on to each other.
