G
Young leaf from the seed that was sewn,
Two hundred years in the ground
Tall trees hangin over the road
Feels like... they re starin me down
It s in the way they sway it s the feeling I get
They just don t want me around
Tall trees hangin over the road
Feels like... they re starin me down
Who s gonna love you when I m gone?
Said the leaves to the limb
Em
                C
I ll get over you in a while
And find... Somebody new in the Spring
When the sun melts the snow
And the water runs down
to where the long river flows
well can I lay with you missy
In the grass tonight
And watch him, gro... gro...
Think of the way things might have been
Gimme a ride..... downtown
