          **G**                                  **Dsus**  
I traded my dreams for this mess of memories  
          **Em7**                                  **Cadd9**  
And they just stopped working for me

~~~Interlude (see bottom)

This is the interlude after the chorus.
Shift the basic structure of the C chord up two frets and use the index finger
to hold
the b and e strings on 3.

```
E|-----|
A|5~-----|
D|---4~-----|
G|-----0~-----3~-----|
B|-----3~-----|
e|-----|
```

Note that during the verse, the song sounds fine with either the Dsus or a
Cadd9. I've
the song with either chord and no one notices anything wrong with the music. I
am not
sure which one is correct, if anyone can point me in the right direction, my
email
is huntbryan36@yahoo.com

Also, if you are a beginner or don't know too many chords, these chords aren't
too hard.
Just play the standard chord and keep your ring and pinky fingers on the 3rd
frets of
e and b strings.
