It s a very good and funny song, if my version you seem not correct ,don t hesitate to send me yours corrections.

CAPO ON 1ST FRET

A **D**
Up above I see specks of silver in the evening sky
A **D** **A**
Specks of gold in the river running from the deep moonlight
A **D**
See us shake in the wild distortion of the waters waves
A **D** **A**
Still I know you re in the darkness shining from a mile away

A **D**
Oh when the sun starts coming through
A **F#m**
Or when the cardinal chides the moon
F#m **D** **A**
I believe in energies that no one has to see for us to prove
F#m **D** **A**
I believe in you and me and everything we ll ever see or do

A **D**
Hear your voice come across the pillows whisper sweet and low
A **D** **A**
In the dark we re disappearing, in the dark we ll go
A **D**
Up above I see specks of silver in the evening sky
A **D** **A**
Specks of gold in the river running from the deep moonlight

A **D**
Oh when the sun starts coming through
A **F#m**
Or when the cardinal chides the moon
F#m **D** **A**
I believe in energies that no one has to see for us to prove
F#m **D** **A**
I believe in you and me and everything we ll ever see and do

D **A**
The rain falls down in a million rivers
D **A**
All through the sand with the silver slivers
F#m
And it keeps on comin
