

## Rejoice With Trembling

Matt Redman

Rejoice With Trembling by Matt Redman

[Verse 1]

**Dm**            **A**                    **Dm**  
We could watch You from afar  
          **G**                    **C**  
And forever be amazed  
                  **Dm**                    **G**    **F**  
At how glorious You are  
**Dm**            **A**                    **Dm**  
Yet You've drawn us close to You  
                  **G**                                    **C**  
Where the wonders greater still  
                          **Dm**                    **G**    **F**  
And You overwhelm us God

[Chorus]

**C**                    **G**                    **Am**  
And we rejoice with trembling in our hearts  
          **F**                    **Dm**    **C**            **F**  
Bring You a song of reverence and love  
          **C**    **G**                                    **Am**  
Jesus how good how great You are  
          **G**                    **Dm**    **C**    **G**                    **C**  
And we rejoice with trembling    before Your throne

[Verse 2]

**Dm**            **A**                    **Dm**  
Who could fully voice the praise  
          **G**                                    **C**  
Of the God of endless days  
                  **Dm**                    **G**    **F**  
Tell a fraction of Your worth  
**Dm**            **A**                    **Dm**  
For we only sing in part  
          **G**                                    **C**  
Of the grace of who You are  
                  **Dm**                    **G**    **F**  
Just an echo just a glimpse
