

**With You, Tonight**  
**Matt Wertz**

**Bm7**      **A**  
Saturday, 600 miles  
         **Bm7**                      **A**  
lie between, the two of us  
         **Bm7**                      **A**  
And telephones, they can't replace  
         **Bm7**                      **A**  
Me with you, face to face.

**G**  
You gotta tell me it's true  
         **A**  
That you feel the same  
**Bm7**  
I'm so much better when  
**G**  
I say your name

CHORUS:

**D**      **A**                      **Bm7**      **G**  
Let me be with you tonight  
**D**      **A**                      **G**  
Everything will be just fine  
         **Bm7**      **A**  
With you tonight

(Chords same as first **Bm7**, **A**)

When Streetlights kissed, upon your lips  
My jealous eyes, saw all of it  
Losing sleep, we learned to be  
Me with you, you with me

CHORUS

You gotta tell me it's true  
That you feel the same  
I'm so much better when  
I say your name

CHORUS (x2)
