Love And Affection Matt White

INTRO E B C#m B A Abm A B x2 C#m Guess I ll be waiting for the time that I m saying Abm а в That I m ready to come back home While the world seems so crazy and you re angry Abm A B And I tell you this is rightfully so E All our friends are getting married C#m And they re happy and they re sappy Abm A B Even though they might be feeling so old В C#m And when I m feeling so lonely and you tell me A Abm Α That you love just for my soul and then I ll sing [CHORUS] Abm A I will offer you love and affection Abm A And all of my warmth and protection A B E BABAB It is just you and I against the world E B C#m B A And fallin down she said she d cry with me I don t know what I said to cause the tension В C#m And all the problems with the money Α Abm а в It s so funny cause I don t care bout it nothin at all C#m В Oh we came together we were lovin on the table We were lovin on the floor We were lovin where it s able E C#m And all the words and the wild nights we spent And the spoonin and the fire A Then you look at me and I say

```
[CHORUS]
                                                                                                   Abm A B
       I will offer you love and affection
      E Abm A B
      And all of my warmth and protection
 It is just you and I against the world oh baby
 It ll be you and I against the world
Let s spend the days doin nothin
                                                                                          В
Nothin to say or worry
This could be startin somethin
Don t have to end this story...
E Abm A B x2
 I... I... oh...
[CHORUS]
                                                                                                Abm A B
I will offer you love and affection
     E Abm A B
And all of my warmth and protection
     A B
      It is just you and I against the world
     B A B A
Oh... Tell me baby
     It is just you and I against the world
     В
Oh... Oh... Will you tell me
It is just you and I against the world % \left( 1\right) =\left( 1\right) +\left( 1\right) +\left(
