Said hello, remain, close to me

Abm **Db** **E5**

Hello, goodbye, suicide, mystery

Bsus4 **Abm** **Bsus4**

The rat in your brain, turns a wheel

Abm **Db** **E5**

Connected to your guts and all your faults in me

Bsus4

And all your faults in me

Abm **Bsus4**

What would you say, if we lived on TV

Db

Besides all the things they tell you to

E5

And all the things they tell you to

Db

And all the things they tell you to

E5

And all the things they tell you to

Bsus4 **Abm**

We re stuck inside our own machine

Bsus4 **Abm** **Db** **E5**

Apparitions, apparitions, apparitions

Bsus4 **Db** **E5** **Bsus4** **Abm**

Said hello, well is it strange

The way you are, where you used to be kind of free

Are they laughing at you, laughing at you

The rat in your brain, rules the world

>From the comfort of your living room

Tell me are we leaving soon

We re stuck inside out own machine

Apparitions, apparitions
