

**Appartitions Acoustic**  
**Matthew Good Band**

Here is my Apparitions cheat because Iâ€™m lazy and I hate playing complicated chords and bar chords (when I can avoid it) even if they DO sound better.

Capo 3

Standard Tuning

D-(pause)-D-D-U-

U-D -D-U-D-U (this is the strumming pattern I use, I play this pattern twice on each during the verse.)

[G]

Say hello

[C]

Remain

[Em]

Close to me

[Am] [C]

No good-bye suicide mystery

[G]

The rat

C]

In your brain

[Em]

Turns a wheel

[Am]

Connected to your guts and

[C]

All your faults are in me

[C] [G]

And all your faults in me

[G] [C]

What would you say

[C] [Em]

If we lived on TV

[Am]

Besides all the things they told you to

[C]

And all the things they told you to

[Am]

And all the things they told you to

[C]

And all the things they told you to

[G]

We re stuck

[D]

Inside our own machine

[C]

Apparitions

[Am]

Apparitions

[G]

Apparitions

(The rest of the song repeats from here on out " I make up the solo part with a mix of same chords because I play it acoustically)

Say hello

Well is it strange

Where you are

Where you used to be kind of free

Are they laughing at you

Laughing at you

The rat

In your brain

Rules the world

From the comfort of your living room

Tell me are we leaving soon

The comfort of your living room

Tell me are we leaving soon

We re stuck

Inside our own machine

Apparitions

We re stuck

Inside our own machine

Apparitions
