

Second Sun

Matthew Good

I've been listening through some of his pre-MGB stuff and I think these chords work well, however, something feels just a bit off.

If you have any suggestions let me know!

Capo 3

G **Gmaj7**
the curtain comes down tomorrow
G **Gmaj7**
I heard that Jupiter was gonna punch a hole in the sky
G **Gmaj7**
take the frown a little closer to the clown
G **Gmaj7**
maybe we'll all be smiling when we die
Am **C**
I just wanna play while the world comes under
Am **C**
these days you know I just do it for fun
Am
you see I'll never have that much to say
C **G** **Gmaj7**
I'm blind to see it anyway you want

(repeat pattern for the following verse)

maybe space is just a little longer of a drive
gas up the car, stop in at 7-11
which would mean that all this time
we were never more than four blocks west of heaven
I just wanna play while the world comes undone
these days you know we don't all do it for fun
you see I'll never have that much to say
I'm blind to see it anyway

(following verse is only **G** & **Gmaj7**)

hey little girl, don't you worry
wherever there's lights there's bound to be a hotel
and inside I'm shaking like a leaf
and I'm, I'm as cold as hell
but maybe we'll be more than happy
and maybe there's a lot more to it than this
and maybe looking down ain't all that bad
when there's nothing down there that you'll miss

no, no

(then **Am** & **C** again)

I just wanna play while the world comes undone
these days you know I just do it for fun
you see I ll never have that much to say
I m blind to see it anyway you want

(and back to **G** & **Gmaj7**)

the curtain comes down tomorrow
I heard that Jupiter was gonna turn into a second sun
and like the night born unto a second light
we ll all look real small when it comes
hey little girl, don t you worry
wherever there s lights there s bound to be a hotel
