

Return To Me

RETURN TO ME

Matthew Ryan "Capo 1

G Em D C

Slowly walking down the street, where the homeless and the lovers meet
The bars glow blue, your skin does too, I saw the (galleon?), in the skyline, in
the
line

I took a drink, I took the pills, you'll murder me, I know you will, so I
mention, that
could change this
That you were hoping, I keep hoping, for a cure, for some medicine, just one
conversation

I can't return to you, you must, return to me, that's the deal
I'm sorry, did I say I'm sorry, I'm sorry

Break

The universe, where all is flat, you hunker down and relive the past
You're leavin', soon, it's ten till noon
I see a black car, I'm movin' through tar, when we're apart

I haven't been the worst of kindness, a sorrowed heart, and a cluttered mind
But I'm thinking, that I could change this, that I could change this
But, I can't change this

I can't return to you, you must, return to me, that's the deal
I'm sorry, did I say I'm sorry, I'm sorry, I'm sorry and now

Break

I can't return to you, you must, return to me, that's the deal
I'm sorry, did I say I'm sorry, I'm sorry, I'm sorry and now

Did I say I'm sorry, did I say I miss you, I'll do what I have to, do
I say I miss you, I miss you, I'll do what I have to do

Any help on correcting the lyrics would be greatly appreciated.

Chords - I m not sure of the correct chord names

G - 3x0033

Em - 033033

D - x00232

C - x32033

Note - I rock back and forth on the D note on the B string. Listen to the song to see

I mean. Enjoy! GG
