Nothing Else
Matthew West

Intro: **G#m B F# C#**

```
        B
I tried money
          D#m
I got as much as I could
and I went to the store
      B
And I bought it all
         D#m
But it wasn t enough
 cause I wanted some more
           B
But my house was full
                D#m
So I bought a bigger house
    D9-
and filled it up
    D#m7/C#              Cm7
And there I was with all that stuff
      B
And empty
```

```
G#m                 B                  F#
Nothing else can take the place of You
      C#
It s true
G#m                 B                  F#
Nothing else can take the place of You
             C#
I know it s true
```

```
        B
Still I try friendship
         D#m
I called everyone I knew
                          B
And invited them over for a party
         D#m
They ate all the free food
                          B
And they told me how much they loved me
             D#m
But when the food was gone
    D9-
My friends were gone
    D#m7/C#           Cm7
```

```
And there I was all alone
     B
And empty

G#m                 B                  F#
Nothing else can take the place of You
         C#
Nothing else
G#m                 B                  F#
Nothing else can take the place of You
             C#
I know it s true

B                F#
So take the place
                 C#
The place of you
                      G#m
And fill this space
                 B
The way you do
                      F#
I m tired of searching
                     C#
Those days are through
So take the place
                 G#m B F# C#
It s made for you

       G#m                   B
Not friends or money or alcohol
F#
None of these things, believe me
        C#
You can try them all
     G#m
Not status
        B
Not success
        F#
I know none of these things
                   C#
will ever bring true happiness

G#m                 B                  F#
Nothing else can take the place of You
         C#
Nothing else
G#m                 B                  F# C#
Nothing else can take the place of You

Yes, I know
G#m                 B                  F# C#
```

Nothing else can take the place of You
G#m   **B**   **F#**
Nothing else can take the place of You

Nothing else can take the place of You
G#m   **B**   **F#**
Nothing else can take the place of You
