

I Wonder

Maura O'Connell

[Intro]

Bb

[Verse]

F

When I try to remember the way we lived before

Bb

Oh, the fire was ending, ever wanting more

And you and me, baby, living this lie

F

I try to remember

You woke me up in the morning, flashed before my eyes

Bb

All of the warnings poured out of the sky

Tapping on the rooftops, pounding on my window

F

Trying to remember

[Chorus]

F

And I wonder, looking out at the rain

Bb

How much thunder can turn a sky to flame

C

Bb

And burn away these clouds we live under

Well, I wonder

[Verse]

F

Are there really such things as trust to forgiveness

Bb

Gentle warm breezes coming from the west

C

Drying up the raindrops, blowing through my window

F

Are there really such things

Cause, baby, you and me together are like a stormy day

Bb

On a shaky old bridge, the river s gonna slip away

C

But I still can t believe

F

That old river s gonna take us

And I wonder, looking out at the rain

Bb

How much thunder can turn a sky to flame
