It ain t right to be apart from you
     C
For so long

       Am   **F**
And this world is out to get us

F   **C**
Back someday for you

[Chorus 1]
          Am
I ll come back for you

```
F                                    C
Back someday for you
                Am                              F
I give anything to be with you
          C
It s so damn true

             Am                     F
It don t feel right to leave you
                   C                              G
And I m all alone in an airport, baby
                              Am
But I ll come back for you
F                          C
Back someday for you

Am                          F
Hey yeah, hey yeah
                    C
And I ll come back for you

And I ll be waiting for you

[Refrain]
          Am
And you need to know
             F
That I ain t gonna go
          C
And leave you for someone new

                    Am
I ll come back for you
F                                    C
Back someday for you
                    Am
I ll come back for you
F                          C
Back someday for you

                    Am
If it s too hard for you
F                                         C
Then do what you gotta do

[Chorus 2]
                    Am
I ll come back for you
F                          C
Back someday for you
          Am
And while I m away
F                                              C
```

```
My heart will stay right here with you
                        Am
And I just can t wait
F                                           C                       G
 Til I m on my way to LAX, now, baby

              Am
I ll be back with you
F                           C
Right here back with you
            Am
I ll be back with you
F                       C
Right here back with you
```
