Id Rather Make Mistakes Than Nothing At All
Mayday Parade

[Verse]
```
         D                                         A
All these days have turned these months into a year
            G                             D              A
And I ve been spending every second wishing I could disappear
       D                               A
And I know when they all start to speak again
         G                        D         A
I just need some inspiration I can rightfully defend
         G                D              A              G
And I m close when it s hurting bad, it only gets worse
               D                A
I sing for the children of the earth
```

[Chorus]
```
       G                               D
I ve broken every rule that I ve known
                                 A
Since you told me that I ve got to have passion
Bm                A              G
Honestly, you ve got me all wrong
                              D                          A
I am just a boy on my own, and we re looking for some promising action
Bm                A              D
Tell me what it takes, you we re wrong
```

[Bridge]
```
G
Make a move, so carefully,
D                       A
Cut me down and let me bleed
          Bm            G
And I ll slowly, walk away
```

First time doing this! :)
