Id Rather Make Mistakes Than Nothing At All
Mayday Parade

[Verse]
```
          C                                           G
All these days have turned these months into a year
                F                           C              G
And I ve been spending every second wishing I could disappear
        C                          G
And I know when they all start to speak again
          F                        C        G
I just need some inspiration I can rightfully defend
            F             C            G            F
And I m close when it s hurting bad, it only gets worse
                  C               G
I sing for the children of the earth
```

[Chorus]
```
        F                              C
I ve broken every rule that I ve known
                               G
Since you told me that I ve got to have passion
Am              G              F
Honestly, you ve got me all wrong
                          C                              G
I am just a boy on my own, and we re looking for some promising action
Am              G                  C
Tell me what it takes, you we re wrong
```

[Bridge]
```
F
Make a move, so carefully,
C                      G
Cut me down and let me bleed
          Am           F
And I ll slowly, walk away
```

First time doing this! :)
