Verse 1: Do intro riff

G

And we said it would be funny
to keep me hanging in suspense

C9

Then I d run over to your house
and I d scale the chainlink fence

Em7

That borders your back yard and
then I d climb through your window

C9

And I d whisper that I love you
as you fall out of your clothes

G

And we d lay there in the
darkness like the dream of you I had

C9

Where we captured all the
fireflies and knew what time we had

Em7

Could be counted on our fingertips
that almost made you cry

C9

You let me hold you tightly
as we said all our goodbyes

Refrain 1:

C9 **Em7**

May I say I loved you more

C9 **Em7**

May I say I loved you more

Interlude: **C9**

Verse 2:

G

And it must of been and hour
that I clutched you in my arms

C9

And I must have said the right
things because you instantly felt warm

Em7

And you heard my heart stop
beating and you wanted not to cry

C9

As your sympathetic whispers
they told a tale of bad goodbyes

G

And You swore you saw me laughing
and I swore I saw you smile

C9

And this time we ve spent together
was meant to last us quite a while

Em7

As I take this piece of you with
me I ll carry to my grave

C9

Knowing that for someone you re
an angel sent to save

Refrain 2:

(Keep Breathing my angel
if you go down I go with you)

C9 **Em7**

May I saw I loved you more
(Keep Breathing
Just Keep Breathing)
(Keep Breathing my angel
if you go down I go with you)

C9 **Em7**

May I saw I loved you more
(Keep Breathing
Just Keep Breathing)
