

Still Cold
Mazzy Star

C G D

C G D

G D
You really had a million hearts to break
G D
And all this time I never left you in the moonlight
G D
How comes always someone else driving your car
G D
Taking you different places in the sunlight

C G D
Still cold like the stars
C G D
That s just the way you are
C G D
Still cold like the stars

C G D

C G D
You used to say your heart felt like a stone
C G D
Now everything you ever wanted is your own

C G D
Still cold like the stars
C G D
That s just the way you are
C G D
Still cold like the stars

Continues C G D
