I made her shatter

Am

But I ll, I ll never say goodbye

I ll never say x4 (Break)

And now I m running in circles
Feels like I m losing my mind
And I m trying to get off
Anywhere before she s gone
Going down this lonely road
Hoping to see her again
Cause I can see her reflections
Flashes in every mirror
Kissing her when I m alone
Making love until the dawn
Now that every night I know
I can t live with out her

Foolish for me to think
She would leave by December
Foolish to let misery
Let her fall apart in autumn
Driving on a one way street
No U-Turn to get back to me
Running close to empty
But I ll, I ll never say goodbye

(Repeat chorus)

Never say, never say, never say, never say goodbye x2

Driving on a one way street
No U-turn to get back to me
Running close to empty
But I ll, I ll never say goodbye

(Repeat chorus twice)
