Memory Lane McFly

Hey everyone, I ve just joined up here, and I noticed that there wasn t a tab for this

song, so here s what I worked out. I think it s pretty accurate, it sounds ${\tt OK}$ when I

play it with the CD! To work out the timing, listen to the song as you play. Anyway,

if there s something wrong with it, or there s any questions, comments, McFly s phones

numbers or anything like that, email me on $pervy_hobbit_fancier_@hotmail.com$ and let me

know!
