Eye of the Hurricane

(Intro) **G D Bm A**

(Verse 1)

**Bm**                    **G**                    **D**  
Feels like the hurricane has come,  
                                 **A**  
Feels like this ship is sinking,  
**Bm**                    **G**                    **D**                    **A**  
These skies seem empty of your mercy tonight,  
**Bm**                    **G**                    **D**                    **A**  
Sometimes the mystery of grace runs deeper than I m thinking,  
**Em**                    **Bm**  
In the dark I find your light,

(Chorus)

**G**                    **D**  
When I m over my head yeah,  
                 **Bm**                    **A**  
I m waiting for a miracle,  
                 **G**                    **D**                    **A**  
I m fighting the wind and the waves,  
                 **G**                    **D**                    **Bm**                    **A**  
Then the weight of this storm drives me straight to your arms,  
                 **G**                    **D**                    **A**  
You hold me I know that I m safe  
                                 **Bm G D**  
In the eye of the hurricane,  
**A**                    **Bm G D A**  
Eye of the hurricane.

(Verse 2)

**Bm**                    **G**                    **D**  
Sometimes I m crying for relief,  
                                 **A**  
God let this night be over,  
**Bm**                    **G**                    **D**                    **A**  
One word if you would speak could silence the storm,  
**Bm**                    **G**                    **D**                    **A**                    **Em**  
Instead your mercy has a way of turning heart ache to faith  
                                 **Bm**

that hope will be reborn,

(Chorus)

**G D**  
When I m over my head yeah,  
**Bm A**  
I m waiting for a miracle,
