

**Cheatin' In Your Dreams**  
**Meat Loaf**

*Intro:* C F C G C

**Em**      **C**          **F**  
You see me now, as large as life  
                  **G**                  **C**  
But underneath, you knew all too well  
          **Em**          **C**          **F**  
The hollow shell, no spark of life  
                  **G**                          **C**  
Where once upon a time, there beat a heart  
          **Em**                  **Am**                  **Em**  
For you and you knew it, from the start  
          **C**                  **Am**          **Bb**          **C**  
And you went and blew it, all away

**Em**                  **F**  
And you knew how, oh, you knew best  
                  **G**                  **C**  
The strings to pull and buttons to press  
          **Em**          **C**          **F**  
To wind me up, or make me shake  
                  **G**                  **C**  
You controlling every move I make  
          **Em**                  **Am**                  **Em**  
How could I ve seen through it, all the pain  
          **C**                  **Am**          **C**  
And you put me through it  
**Bb**                  **G**  
Over and over again  
          **Bb**                          **G**      **C**  
Just tell me, over and over and over

*Chorus:*

**Am**                  **Bb**          **G C**  
How could you say there was no other?  
          **Am**                  **Bb**          **G C**  
Why is it, nothing s what it seems?  
          **Am**                  **Bb**          **G C**  
You told me I m your greatest lover  
          **Am**                  **Bb**          **G C**  
Do you even know what that word means?

**C7**

Your loving is cooling

**Am**

**F**

Baby, who ya think you re fooling?

**Dm**

**F**

**C**

Cause when I woke up, I caught you cheatin in your dreams
