Fallen Angel

D **G**
I took one look and something snapped I said I love your eyes --

D **G**
You took my heart you took my breath away I felt my temperature rise

Em **D#m**
you said you ve never loved a man this Way

Em **A**
That it was heaven you were here to stay

G **F#m** **Em**
But now you re just another fallen angel

G **F#m** **Em**
And I hope that the fall didn t do you no harm

G **F#m** **Em**
And now you re just another fallen angel

G **A** **D**
Falling into -- somebody else s arms

D **G**
I took one look and I was paralyzed and was in paradise--

D **G**
I must admit that when I first laid eyes you had me hypnotized --

Em **D#m**
You said I m sorry but I don t say much

Em **D#m**
But I m in heaven when I feel your touch

G **F#m** **Em**
But now you re just another fallen angel

G **F#m** **Em**
And I hope that the fall didn t do you no harm

G **F#m** **Em**
And now you re just another fallen angel

G **A** **D**
Falling into -- somebody else s arms

Bm **C#m** **G** **F#m**
Follow your own road baby, I ll be there when you need me

G **A** **D**
To love and to comfort and what he got ain t

G **A** **F#m**
Enough to keep you in the air, I ll be there

Em **D#m**
you said you ve never loved a man this Way

Em **A**
That it was heaven you were here to stay

G **F#m** **Em**
But now you re just another fallen angel

G **F#m** **Em**
And I hope that the fall didn t do you no harm
