

More Than You Deserve
Meat Loaf

Intro: C F (5x) C

From the very first moment I saw you
I knew our love would be so strong
And the very first moment I kissed you
I knew our joy would last so long

Pre-Chorus

Then I saw you making love to my best friend
I didn't know whatever to say
I saw you making love to my best friend
So I looked him right in his eyes and I said, Listen boy,

Chorus:

Won't you take some more, it's what you came for
And don't mind me, I won't throw you no curves
Have yourself a ball with my good woman
Won't you take some more boy, it's more than you deserve
Won't you take some more boy, it's more than you deserve

When I saw you hanging round the truck stop
Shining like an angel in the night
And when I saw you crying like a baby

I knew you d have to be my wife

Pre-Chorus

Then I saw you making love to my best friend
I didn t know whatever to say
I saw you making love to my best friend
So I looked him right in his eyes and I said, Listen boy,

Chorus:

Won t you take some more, it s what you came for
And don t mind me, I won t throw you no curves
Go on, have yourself a ball with my good woman
Won t you take some more boy, it s more than you deserve
Won t you take some more boy, it s more than you deserve

Instrumental: (## Lead Break ##)

(## Key Change ##)

Now I think I m gonna have to leave you
Because I m feeling much too weak to share
And the pie, oh, it s cut in too many pieces
The flavour that I crave is no longer there

Pre-Chorus

Then I saw you making love to two of my best friends
I didn t know whatever to say
I saw you making love to a group of my best friends
So I looked them right in their eyes and I said, Listen here, group,
