VERSE:

```

          D
As I m lying there
          G                      D
And cold comforts blown from nowhere
          G                      D          G
And blue light is on the ground
          D
And the coloring
          G                      D
Is changing reflecting everything
          G                      D (Riff-D)
From cold mirrors all around
```

CHORUS:

```

          G
I see candles
          F
On the mountain
          G
I see the vampires
          F
That surround them

D    A    C    G
Shaking shaking
Shaking shaking

          G
I see the candles
          F (Riff-D)
on the mountain
```

Is sung softly by the candle light
G **D** (Riff-D)
To cold waters underground
