

**Awkward Kid**

**Mega City Four**

For some reason there don't seem to be any tabs on the net for this great band from the late 80s/early 90s, despite their having released 8 albums. Check out this

song on Youtube and the rest of their discography on <http://www.megacityfour.co.uk/>

By the sounds of things a couple of their albums are set for re-release early 2013.

Here are the chords for this great song, any suggestions or comments, give me a shout. Be gentle, this is my first tab here.
