

**Second Friend**  
**Megafaun**

**Eb**

You should know by now

**Fm7**

baby the past is in the sand

**Bb**

buried with all the fights and sleepless nights

**G#**

**Eb**

I know you understand

Just because we re here

doesn t mean there wont be change

it may slow our climb from time to time

and leave us in the rain

**G#**

**Eb**

I ll keep the rain off your head

**G#**

**Eb**

you feel the warmth in my hand

**G#**

**Fm7**

the storm is past and left our glass

**Bb**

**Eb**

flowin over the edge

any moment now our river will be changing course

we may not have time to drift and glide

just like those days before

could this day sit still

free of time and growing pains

I would watch your hair dance in the air

and beg to hear you sing

for what we have is real

and time is going to heal

this rain wont last just like the past

buried in the sand

**G**

**G#**

**Bb**

and I hope you know I hope you know

**G#**

**Eb**

I ll never ever let you go alone

**G**

**G#**

or be the one to let you run

**Bb**

from distraction

**Bb**

**G# Eb**

or drop your ambition until you ve reached the sun

you should know by now  
baby the past is in the sand  
buried with all the fights  
and sleepless nights  
I know you understand
