Verse

**B** **E**  
I understand your point of view  
**A** **F#** **B**  
Letting me go but I thought you had more faith  
**B** **E**  
Everything I ve done for you  
**A** **F#** **B**  
You made the mistakes and now you throw this in my face  
**B** **E**  
And I have worked so hard for you  
**A** **D** **F#**  
All of this time and you cast me aside  
**B** **E** **G**  
I understand your point of view

Chorus

**D** **E**  
But I can t seem to get my head around  
**E** **G**  
All the things that I feel good about  
**B** **A**  
Always seem to disappear  
**D** **E**  
And everytime I think I ve got this all worked out  
**E** **G**  
Something chews me up and spits me out  
**G** **B**  
But there s nothing left to fear  
**E** **G**  
I m better alone my dear.

Verse

**B** **E** **A**  
You couldn t pick a better time to give me the news  
**A** **F#** **B**  
Why don t you kick me when I m down?  
**B** **E**  
I d always believed in you  
**A** **F#** **B**

Defended your name but you have not been true

**B** **E**  
I gave you so much of my life  
**A** **D** **F#**  
I've compromised and you tell me goodbye  
**B** **A** **G**  
You couldn't pick a better time

Chorus

**D** **E**  
And I can't seem to get my head around  
**E** **G**  
All the things that I feel good about  
**B** **A**  
Always seem to disappear  
**D** **E**  
And every time I think I've got this all worked out  
**E** **G**  
Something chews me up and spits me out  
**G** **B**  
But there's nothing left to fear  
**E** **G**  
I'm better alone my dear

**B** **D** **E** **G**  
I know I really should thank you for setting me free  
**B** **D** **E** **B**  
It's really amazing the changes I'm starting to feel  
**B** **G** **A**  
It's not gonna be long, till I'm fit and strong  
**F#** **B**  
Deliverance helped me heal  
**B** **E** **G**  
Still I wonder if you ever wish you still had me

**D** **E**  
Will I ever get my head around  
**E** **G**  
All the things that I feel good about  
**B** **A**  
That always seems to disappear  
**D** **E**  
When every time I think I've got this all worked out  
**E** **G**  
Something chews me up and spits me out  
**G** **B**  
But there's nothing left to fear  
**A**  
No No No

**D** **E**  
I can't seem to get my head around

**E** **G**  
All the things that I feel good about

**B** **A**  
That always seems to disappear

**A**  
No No

**D** **E**  
And every time I think I've got this figured out

**E** **G**  
Something screws me up and drags me down

**G** **B**  
But there's nothing left to fear

**B** **E G**  
I'm better alone my dear
