

Defended your name but you have not been true

**B** **E**  
I gave you so much of my life

**A** **D** **F#**  
I've compromised and you tell me goodbye

**B** **A** **G**  
You couldn't pick a better time

Chorus

**D** **E**  
And I can't seem to get my head around

**E** **G**  
All the things that I feel good about

**B** **A**  
Always seem to disappear

**D** **E**  
And every time I think I've got this all worked out

**E** **G**  
Something chews me up and spits me out

**G** **B**  
But there's nothing left to fear

**E** **G**  
I'm better alone my dear

**B** **D** **E** **G**  
I know I really should thank you for setting me free

**B** **D** **E** **B**  
It's really amazing the changes I'm starting to feel

**B** **G** **A**  
It's not gonna be long, till I'm fit and strong

**F#** **B**  
Deliverance helped me heal

**B** **E** **G**  
Still I wonder if you ever wish you still had me

**D** **E**  
Will I ever get my head around

**E** **G**  
All the things that I feel good about

**B** **A**  
That always seems to disappear

**D** **E**  
When every time I think I've got this all worked out

**E** **G**  
Something chews me up and spits me out

**G** **B**  
But there's nothing left to fear

**A**  
No No No

**D** **E**  
I can't seem to get my head around

**E** All the things that I feel good about **G**

**B** That always seems to disappear **A**

**A**  
No No

**D** And every time I think I ve got this figured out **E**

**E** Something screws me up and drags me down **G**

**G** But there s nothing left to fear **B**

**B** I m better alone my dear **E G**
