Verse

C **F**
I understand your point of view
Bb **G** **C**
Letting me go but I thought you had more faith
C **F**
Everything I ve done for you
Bb **G** **C**
You made the mistakes and now you throw this in my face
C **F**
And I have worked so hard for you
Bb **Eb** **G**
All of this time and you cast me aside
C **F** **G#**
I understand your point of view

Chorus

Eb **F**
But I can t seem to get my head around
F **G#**
All the things that I feel good about
C **Bb**
Always seem to disappear
Eb **F**
And everytime I think I ve got this all worked out
F **G#**
Something chews me up and spits me out
G# **C**
But there s nothing left to fear
F **G#**
I m better alone my dear.

Verse

C **F** **Bb**
You couldn t pick a better time to give me the news
Bb **G** **C**
Why don t you kick me when I m down?
C **F**
I d always believed in you
Bb **G** **C**

Defended your name but you have not been true

C **F**
I gave you so much of my life
Bb **Eb** **G**
I've compromised and you tell me goodbye
C **Bb** **G#**
You couldn't pick a better time

Chorus

Eb **F**
And I can't seem to get my head around
F **G#**
All the things that I feel good about
C **Bb**
Always seem to disappear
Eb **F**
And every time I think I've got this all worked out
F **G#**
Something chews me up and spits me out
G# **C**
But there's nothing left to fear
F **G#**
I'm better alone my dear

C **Eb** **F** **G#**
I know I really should thank you for setting me free
C **Eb** **F** **C**
It's really amazing the changes I'm starting to feel
C **G#** **Bb**
It's not gonna be long, till I'm fit and strong
G **C**
Deliverance helped me heal
C **F** **G#**
Still I wonder if you ever wish you still had me

Eb **F**
Will I ever get my head around
F **G#**
All the things that I feel good about
C **Bb**
That always seems to disappear
Eb **F**
When every time I think I've got this all worked out
F **G#**
Something chews me up and spits me out
G# **C**
But there's nothing left to fear
Bb
No No No

Eb **F**
I can't seem to get my head around

F **G#**
All the things that I feel good about
C **Bb**
That always seems to disappear
Bb
No No

Eb **F**
And every time I think I've got this figured out
F **G#**
Something screws me up and drags me down
G# **C**
But there's nothing left to fear
C **F G#**
I'm better alone my dear
