

**This Moment**

**Melissa Etheridge**

**E... A/E**

I... I am watching you sleep

**C#m... C#m/B** (release 3rd string)

It s the promise you ve made

**A/E**

One I find I can keep

**E... A/E**

Oh I...want to swallow the moon

**E**

Give a smile back to you

**E7**

Lighting your way

**A**

Tell the Angels they ll just have to wait

[chorus]

**E... A**

Cause I wanna stay here in this moment

**F#m... B**

Can I quietly slip into you

**E... A**

You and I can stay here in this moment

**F#m** [walkup to **B**]

Let the world fade away,

**B**

I just want to stay with you

-----

I... I am watching you breathe

I am pulled into you

As you smash into me

Oh I want to give you the stars

**C#m**

All that I can hold in my arms

**A**

Placing them where you lay

**F#m, F#m/E, A**

Tell the Angels they ll just have to wait

[Chorus]

**D... A... E... X2**

**D... A... E**

With my hand on your skin we can slowly begin, I am free

**D... A... C#m, B, A (walkdown)**

Now the heavens have less cause I ve found the best and I won t let them take  
you away

**F#m, F#m/E, A**

Tell the angels they ll just have to wait...

[chorus]

I wanna stay here in this moment

Make the earth stand impossibly still

Disappear in your kiss, we ll never be missed

Let the world fade way, I just want to stay with you

With you
