Tell the Angels they ll just have to wait

E... A

Cause I wanna stay here in this moment

F#m... B

Can I quietly slip into you

You and I can stay here in this moment

F#m [walkup to **B**]

Let the world fade away,

I just want to stay with you

I... I am watching you breathe

I am pulled into you

As you smash into me

Oh I want to give you the stars

C#m

All that I can hold in my arms

A

Placing them where you lay

F#m, F#m/E, A

Tell the Angels they ll just have to wait

[Chorus]

D... A... E... X2

With my hand on your skin we can slowly begin, I am free

Now the heavens have less cause I ve found the best and I won t let them take you away

F#m, F#m/E, A

Tell the angels they ll just have to wait...

I wanna stay here in this moment

Make the earth stand impossibly still

Disappear in your kiss, we ll never be missed

Let the world fade way, I just want to stay with you

With you
