**Melissa Ferrick**

Hey guys!

Melissa uses a strumming pattern that's not very easy for novice guitarplayers.

When she plays a chord, she first strikes the first 3 strings (EAD) and then the last 3 (GBE).

Plus she does that in a different order.

!!I recommend you to listen to the song very carefully to find out the rithm and the way she does it!!

Play the chords in barrÃ©, so you can damp the strings like ferrick does it in her song.

Try to variate in the chords, like for example lifting your middlefinger when you

play the Dm in the chorus!

Wew, this is my first tab, so if there's something wrong, inform me or correct it ;)

Have fun with it!!
