Intro.: **Em D G A G**

(**Em D G A**)

I stay in my room,
All alone in the gloom,
What need I of light?
Machines they can see in the night,
And I feel no pain
Metal heart and a metal brain,
But something is wrong
cause I still feel that signal coming in so (**G A D Em X2**)

(**Em D G A**)

I stand at your door,
I guess I ll wait a moment more
Your hall light comes on
And now my turn to fire upon
But I wheel away
Defer my plight, for another day
To dream of your face
But a video scren takes its place

(**Em G D B**)

Hey, oh it s true
I m a helpless automaton, Make an ultimatum to you
Hey, it s true
Machin ry in my pocket, I ve even got a docket from you (**Em B D A X2**) (**G A D Em X2**)

(**Em D G A**)

I went to the man, I told him a robot is what I am,
But he just smiled, said I was a fractious child
Distrusted not Rusted That s why I feel so disgusted
But I know he s wrong, cause I haven t felt this way for very long

(**Em G D B**)

Hey, it s true,
I m a helpless automaton, make an ultimatum to you
Hey, it s true
Machin ry in my pocket, I ve even got a docket from you
