Gm  
Pull out the stop plugs, drain all the waste

Who needs it anyway  
F  
Fill all the big holes, leave no trace

Gm  
No sign of yesterday

Gm  
I wash all the dishes and I clean up my place

No sign of yesterday  
F  
I stare at the photographs of your dark face

Gm  
No sign of yesterday

Gm  
Out in the yard, was such a lovely place

It s where we used to play  
F  
Inside, outside you can feel and taste.

Gm  
No sign of yesterday

Bb  
And I can t hear you calling  
Am  
I can t hear you calling

C Dm

I can't hear you anymore

Bb

Metal ships are falling

Am

This old car keeps stalling

C Dm

Always seems to be the way

Pick up the pieces, and go dig out the dead

Then you can go to bed

Night is the stealer and time is the test

No sign of yesterday

Pull out the stop plugs, drain all the waste

Who needs it anyway

Fill all the big holes, leave no trace

No sign of yesterday

And I can't hear you calling

I can't hear you calling

I can't hear you anymore

Metal ships are falling

This old car keeps stalling

Always seems to be the way
