Mercury Rev - Holes

The same four chords throughout " Enjoy!

**D Bm F#m G**  
time, all the long red lines  
**D Bm**  
that take control  
**F#m G**  
of all the smokelike streams  
**D Bm**  
that flow into your dreams  
**F#m G**  
that big blue open sea  
**D Bm**  
that can t be crossed  
**F#m G**  
that can t be climbed  
**D Bm**  
just born between  
**F#m G**  
oh the two white lines  
**D Bm**  
distant gods and faded signs  
**F#m G**  
of all those blinking lights  
**D Bm**  
you had to pick the one tonight

holes, dug by little moles  
angry jealous spies  
got telephones for eyes  
come to you as friends  
all those endless ends  
that can t be tied  
oh they make me laugh  
and always make me cry  
til they drop like flies  
and sink like polished stones  
of all the stones I throw  
how does that old song go  
how does that old song go

bands, those funny little plans  
that never work quite right
