

The Love Of God  
MercyMe

D

The love of God is greater far  
                  A                  D  
Than tongue or pen can ever tell  
          D  
It goes beyond the highest star  
          A                  D  
And reaches to the lowest hell

          G                  D  
The guilty pair, bowed down with care  
          A          D  
God gave His Son to win  
          G                  D  
His erring child, He reconciled  
          A          D  
And pardoned from his sin

          D  
Could we with ink, the ocean fill  
          A                  D  
And were the skies, of parchment made  
          D  
Were every stalk on earth a quill  
          A                  D  
And every man, a scribe by trade

          G                  D  
To write the love of God above  
          A          D  
Would drain the ocean dry  
          G                  D  
Nor could the scroll contain the whole  
                  A          Bm G    Bm G  
Though stretched from sky to sky

          Bm G          Bm G          C    Em  
Hallelujah, hallelujah, hallelujah

          G                  D  
Oh love of God, how rich and pure  
          A          D

How measureless and strong

**G** **Bm**

It shall forevermore endure

**A** **D**

The saints and angels song.
