

In Your Arms

Meredith Andrews

The version on here had a few errors and was missing some chords.
This is a beautiful song, enjoy :)

Intro: **Bm**//// **G**// **D**// x2

Verse 1:

I m turning the world off, embracing the silence
Walking away from all the voices, that are screaming in my ear
I ve been too caught up, I ve been so stressed out
And all of the noise replaced the whisper, that used to be so clear

Pre-Chorus:

So i close every door
And put my face back on the floor

Chorus

And I m in your arms, where I belong
There s no other place for me, than right where you are
Some things just don t change, when I call your name
You never hesitate to wrap me in endless grace
When I m in your arms

Verse 2:

I m letting my fears go, giving you control
For you are the One who holds me closer, in my soul s darkest night
Everything I see, is so temporary
So help me to run the race before me, with eternity in sight

Pre-Chorus 2:

Now I close every door

And put my face back on the floor

Chorus

Bridge:

Em7 **D** **A**
To sit at you feet at your table of mercy
Bm7 **A** **G**
To gaze at your beauty, my Lord
Em7 **D** **A**
To drink of your well and be changed by your Glory
Bm **A** **G**
How could I ask for more?
Bm **A** **G**
Jesus, how could I ask for more?
