Anticipate
Metric
[Intro]
Bb Bb Bb Bb
[Verse 1]
What did you plan?
                  Gm
What did you anticipate?
             \mathbf{E}\mathbf{b}
All you demand to find
             Gm
Spiraling down, falling behind
            Eb
No tomorrow
Eb
               Gm
When you re ahead of your time
               \mathbf{E}\mathbf{b}
                         Eb
What did you want to know?
How does it end? How does it go?
[Chorus]
           Gm
From the bottom I fled
           Bb
But the stars overhead
        Gm
Led me away from the ruin
        Вb
I must say that I was a wreck
         Gm
Hit the bottom I guess
           Вb
                           Eb
But the words you once said
        Gm
Led me away from the ruin
          Eb
                     Вb
Second sight up ahead

```
Gm
I couldn t anticipate
                        Eb
How low I would go
What did I miss?
                          Eb
                                   Eb
           F
I didn t know, I didn t know
                Gm
Now what do you anticipate?
           Eb
Another catastrophe
         Gm
Coming around, following me
[Chorus]
          Gm
From the bottom I fled
          Вb
But the stars overhead
        Gm
Led me away from the ruin
        Вb
                          Eb
I must say that I was a wreck \,
        Gm
                  F
Hit the bottom I guess
          Bb
But the words you once said
        Gm
Led me away from the ruin
        Eb Bb Bb
Second sight up ahead
