Sick Muse
Metric

Artist: Metric
Song: Sick Muse
Album: Fantasies

Capo on 2nd fret

Probably, in my opinion, the best song on Metric s latest album, Fantasies. It s

a simpler way of playing the song that I came up with, instead of using the
dreaded F#m, as played when not using the capo. Once again, just my opinion.
Hope you like...

VERSE
Em
Watch out Cupid, stuck me with a sickness
                                                      C
Pull your little arrows out and let me live my life
            Em
You better watch out Cupid, stuck me with a sickness
                                                      C
Pull your little arrows out and let me live my life

The one I better lead

All the blondes of Fantasies
        Em
And we looked at them eleven ways

You said, look at me , I looked away
        C
And you wrote the song I wanna play
