Metro Station

Im only doing the chords for the main parts, ea: Intro/verse and chorus since this song, like Metro Station s other songs, kinda repeats chords. If you dont know the chords in this song, check out this website: <http://www.all-guitar-chords.com/index.php> I suggest to use barrre chords for this song and for my other tab, Control.

I wonder if you re going down
Where we all know you get lost
And then get found
And then I wonder so

I can t believe that s what you said
I wonder in my sleep
I can t believe that s what you heard
can you not defeat

I can t take this
No, I don t like it
I don t know where you are

C#m E Bm C#m

You know she s dancing at the disco

C#m E Bm C#m

Woah oh, She s dying on the Dance floor

C#m E A

I know you re sleeping all alone
You feel suicide
I know you re dying to get out
But its in you deep inside

Do you feel it in your veins
The poison rushing through?
But can t you see it in your heart
I m still there for you?

I can t take this
No, I don t like it
I don t know where you are
