Every Thought A Thought Of You
mewithoutYou

This is just a launch pad to get you started figuring out the rest of this song.
I
spend time trying to get the end/outro, sorry.

The chords for the intro and verse are:

A (major), **C#m**, **F#m**

The sudden break is:

A, **C#m** (and if playing alone, I think the bass continues down to **F#m**)

There s a break (if I remember correctly) and the outro, where I *think* they
are
around in **F#m**, and possibly dropping to an **E**.

Hope this helps. tab@xmemphisx.com
