

I Love You Too Death

MGMT

The beginning of the song is kind of without tune but it gets better at 2:00. It's really simple, perfect for beginners to practice F chord or just rhythm.

Who is much more than a friend,
But never by my side?
All beginnings are an end,
In the blackness there's a light
Maybe you will only read
One or two letters at the most
Shipping crates might line the streets,
Every stranger is a ghost
Cashiers won't deduct the pain,
Loneliness sleeps on the couch
Only noticing the stain
Once the colors faded out

F **G**
Let's go camping in the cold,
C **Am**
Make a fire, buy a tent
F **G**
Envision leather getting old,
C **Am**
Re-send pigeons that were sent
F **G**
Try to memorize your smell,
C **Am**
It reminds me of a field
F **G**
Crickets clearer than a bell
C **Am**
Have all their guys recast in steel
F **G**
Birds don't cry when echoes quit,
C **Am**
They trail off into the fog
F **G**
Autumn hurts far less than sticks,
C **Am**
Knowing winter's five feet tall
F **G**
Generations of defeat
C **Am**
All assuming you're the worst
F **G**
They never tied the cans
C **Am**

To the back end of a hearse
F **G**
 Take your hand against my own,
C **Am**
 If there s a finger I can grip
F **G**
 Reassure me at the ace
C **Am**
 Mine s a black heart you could flip
F **G**
 I ve come to terms with what I have,
C **Am**
 What s been given, what s been asked
F **G**
 Turn my back against the sea,
C **Am**
 And beg the serpent for a dance
F **G**
 But in the red dirt muddy towns,
C **Am**
 Celebration of the dark
F **G**
 Children walking hand in hand
C **Am**
 With the pygmies in the park
F **G**
 I can t touch you only once,
C **Am**
 You always leave me wanting more
F **G**
 So keep my feet within the house,
C **Am**
 And stick my toes just past the door
F **G**
 Let me know when I m in love,
C
 Let me die when I m in love
